Integration

SMARTSPACE by IDeaS

iVvy. venues

Introduction

This iVvy integration with Smart Space by IDeaS brings powerful meetings and events revenue management capabilities to iVvy Venues Management Software users. This includes unparalleled visibility into group business trend data, business performance and competitive positioning trends.

Key features & benefits

- With this integration, you'll be able to create pricing scenarios to enhance strategic decisions, capture forecasts and increase revenue.

- Revenue data is automatically delivered from iVvy to Smart Space: Data includes food, accommodation, packages etc.

- A manual report can also be generated and exported as a CSV.

How it works

iVvy. → **Data direction** → **SMARTSPACE** by IDeaS

Booking sessions Revenue lines ---▶ Forecasting Analysis

Create pricing scenarios to enhance strategic decisions, capture forecasts and increase revenue
