

Introduction

The iVvy Loop App gives iVvy Events Software users the ability to share the latest event information with their event attendees, directly from their dashboard. This provides iVvy Events Software users the ability to create even greater engagement with attendees.

How it works

Key features

- The app allows for private messaging.
- Upload full event schedules and keep attendees informed with notifications.
- Show attendee lists for networking opportunities.
- Customise the iVvy Loop App with your brand colours and graphics.

Drive greater
engagement at
your events
